SPAIN SOCCER CAMP

1. FC Barcelona Soccer Camp

In partnership with Summerfuel

The FC Barcelona soccer camp is a unique and exciting opportunity for boys ages 11 – 18 to experience and enjoy exclusive access to FC Barcelona’s training methods for the true Barça experience, at their official home in Spain.

Participants will play at the Ciutat Esportiva, visit the Camp Nou, and have soccer workshops to learn about Barcelona’s strategies, tactics, pre- and post-game analysis, and sports nutrition and psychology.

Players will have privileged access to the various on-site artificial pitches and train in the very same place as the FC Barcelona first team, B team, youth categories and academy teams.

FCB Workshops

On-field sessions are complemented by carefully designed soccer workshops to help participants improve their understanding of the game. These hour-long workshops meet every day and are led by FC Barcelona staff, guest speakers and experts in their respective field. All players follow the same workshop series. Topics include history of FC Barcelona, soccer theory, physical training, performance training, sports medicine, sports psychology, and an FC Barcelona Museum Tour.

Goalkeeper Training

A specialized goalkeeping school is conducted under the guidance of a FC Barcelona goalkeeper coach.

Complete technical and tactical goalkeeping training includes topics ranging from shot stopping and dealing with crosses to 1v1s and distribution. Goalkeepers are integrated into small-sided games and full matches.

During this camp participants will:

- Improve technical precision
- Improve game intelligence
- Increase speed and agility
- Gain strength and power
- Improve flexibility and balance
- Develop mental toughness
